Miniature Circuit Breakers (MCBs) are essential electrical devices designed to protect circuits from overloads and short circuits. They automatically trip to interrupt the current flow when it exceeds safe limits, preventing damage to appliances and wiring. MCBs are available in various ratings to suit different electrical loads and are widely used in residential, commercial, and industrial applications for reliable circuit protection.

Distribution Boards

The MCB Distribution box offers a comprehensive range of products within its category, catering to both Single Pole (SPN) and Triple Pole (TPN configurations. Designed for efficient circuit protection and distribution, it ensures safety and reliability in electrical installations. Available in various sizes and configurations, it meets diverse residential, commercial, and industrial needs effectively.

Pathway Lighting

Enhance the aesthetics and functionality of your hallways or outdoor pathways with LED foot lights. Try these creative approaches: Place LED foot lights along the baseboards or skirting of your hallway to create a subtle, guiding light that adds depth and dimension to the space. Install LED lights in recessed channels along outdoor walkways to provide visibility and a warm, inviting ambiance for guests. Experiment with different light colors to create a vibrant and visually striking path to specific areas or rooms within your home.
